Subject: meeting

Jason, I just wanted to thank you for speaking at the meeting of the Association of IT Professionals, student chapter of Gwinnett Technical College. Your talk was both interesting and informative. You represented yourself and Tiverity well! I had no idea you were such a great speaker! Seldom have we not have students bail 10 minutes after the speaker began, but you held their attention with relevant, real-world information that keep them on the edge of their seats. Dr. Thacher, who is the CIS Program Director, was very impressed and truly appreciated the time and effort that you spent preparing your presentation and speaking at the meeting. I am still receiving glowing comments from both students and faculty every time I go to school. Thank you and please pass on to your team how much we appreciated having you speak.

Randy Cooper
